Population:
No A-1

CANADA
COUNTIES AND CENSUS DIVISIONS

This bulletin presents final population figures of the 1941 Census for Canada as a whole, by sex, according to counties and census divisions, and sub-dividing the population into rural and urban. Previous bulletins have been issued for each province separately, giving the final population by sex, for counties or census divisions, and also showing the population of cities, towns, villages, parishes, townships and other local sub-divisions. (See Bulletin No. A-1 for each province). The present bulletin is the first of a series to be issued for Canada as a whole, and, as in the case of the provincial reports, the remaining bulletins in the series will provide summary data on conjugal condition, age, birthplace, racial origin, immigration and citizenship, religion, language and schooling, etc. This information will be shown for the following areas: (a) Canada as a whole, separating the rural and urban population, and giving comparative figures for 1931; (b) provinces, by rural and urban; and (c) urban centres of 15,000 population and over.

Cross-classifications of the population will appear in farther series.

For most areas the increases in population shown in the final population figures as compared with the figures given in the preliminary announcements of population are due to the addition of men in the Armed Services not enumerated at their permanent homes on June 2, 1941. It should be noted also that the final population compilations were made after the completion of the transfer of persons, recorded on Absentee Household and Closed Dwelling Cards, to their permanent residence.

Definition of terms

Rural and Urban. - The term "urban" in the Census applies only to incorporated cities, towns and villages. The population of all unincorporated towns and villages is included in the rural population.

ERRATA

Since the publication of the Bulletin "Final Announcement of Population", additional returns from the Northwest Territories have made it necessary to revise the final count of the population of Canada. The revised figures should read as follows:

	Total	Male	Female
Canada	11,506,655	5,900,536	5,606,119
Northwest Territories	12,028	6,700	5,328

Price: 10 cents

CANADA
COMTES ET DIVISIONS DE RECENSEMENT

Ce bulletin présente les chiffres définitifs du Recensement de la population de 1941 pour le Canada en général. Il répartit la population suivant le sexe et d'après les comtés et les divisions de recensement et la divise entre population rurale et population urbaine. Des bulletins ont déjà été publiés pour chaque province en particulier donnant la population, selon le sexe, des comtés ou divisions de recensement et indiquant les populations des cités, villes, villages, paroisses, townships et autres subdivisions locales. (Voir Bulletin no A-1 pour chaque province). Le présent bulletin est le premier d'une série devant être publiée sur le Canada en général, et, comme dans le cas des rapports provinciaux, ceux qui suivront contiendront des données sommaires sur l'état conjugal, l'âge, le lieu de naissance, l'origine raciale, l'immigration et la nationalité, la religion, la langue et l'instruction, etc. Ces renseignements seront donnés pour les régions suivantes: (a) Canada en général, séparant la population rurale de la population urbaine et donnant les chiffres comparatifs de 1931; (b) provinces, selon la population rurale et la population urbaine, et (c) centres urbains de 15,000 habitants et plus.

Des classifications recoupées de la population paraîtront dans des séries subséquentes.

Pour la plupart des régions, les augmentations de population indiquées dans les chiffres définitifs en regard des chiffres des états préliminaires sont dues à l'addition des membres des forces armées qui n'avaient pas été énumérés à leur domicile permanent le 2 juin 1941. Il faut aussi noter que la compilation définitive de la population a été faite après que les personnes, inscrites sur les fiches de ménage absent ou d'habitation fermée, eurent été transférées à leur domicile permanent.

Définition des termes

Rural et urbain. - Le terme "urbain" pour les fins de recensement ne s'applique qu'aux cités, villes et villages incorporés. La population des villes et villages non incorporés est comptée avec la population rurale.

ERRATA

Depuis la publication du bulletin "Chiffres Définitifs sur la Population", des rapports additionnels des Territoires du Nord-Ouest ont nécessité une révision du comptage définitif de la population du Canada. Les chiffres révisés sont les suivants:

	Total	Hommes	Femmes
Canada	11,506,655	5,900,536	5,606,119
Territoires du Nord-Ouest	12,028	6,700	5,328
